## Bring DCG in To Help You Win

From one partner to another: There's a better way to take on (and save) projects outside of your organization's core skillset. DCG has a variety of partner models that allow you to instantly fill gaps in products or services focused on infrastructure and security, enterprise resource planning, business applications, custom development, and Premier Support.

### Accelerate Sales

Win deals by bringing in DCG experts to showcase your ability to meet new customer needs.

### Increase Competitiveness

Gain traction in new markets by coupling your new offerings with our GTM strategy and planning.

### Build Brand Champions

Multiply and keep business by surrounding your clientele with new experts with your values.

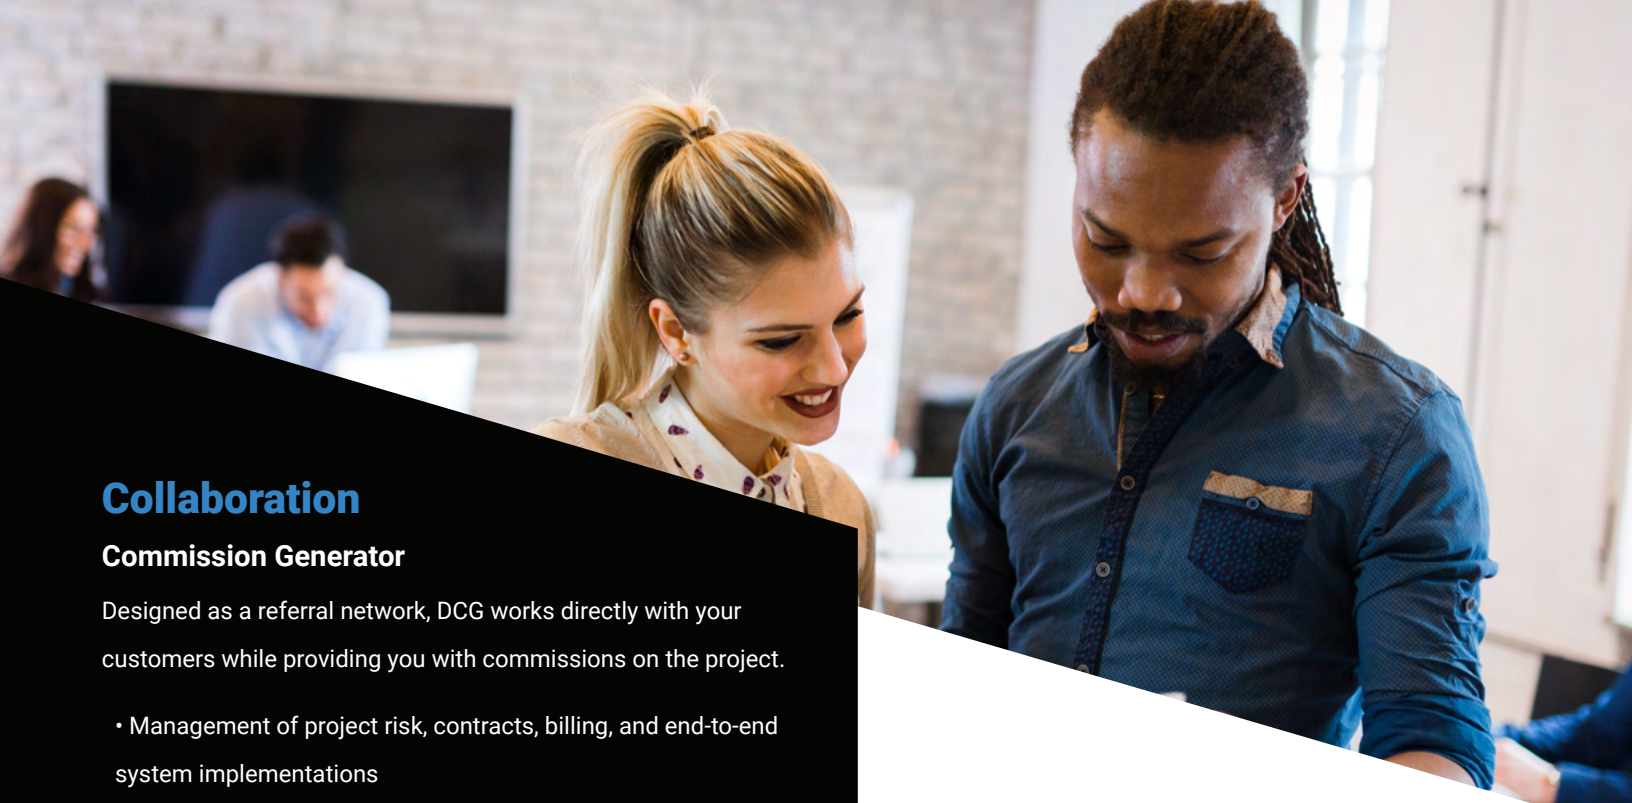

### Reduce Costs

Scale your team up and down on demand without the need for hiring, training, and developing.

It's time to fulfill your potential. Scan the code to get started.

## Collaboration

### Commission Generator

Designed as a referral network, DCG works directly with your customers while providing you with commissions on the project.

- Management of project risk, contracts, billing, and end-to-end system implementations
- Sales process facilitation

## White Label

### Practice Builder

Operating as representatives of your business, DCG allows you to instantly add a practice and meet the needs of your client. In addition, DCG will provide training and support if your team is ready to build on your own.

- Product training and education
- Sales, leadership, and marketing content

## Placement

### Staff Augmenter

Add a DCG member to your project within hours to increase bandwidth and speed of delivery - turning an at-risk project into repeat business.

- Senior resources on demand
- Low-cost, high-quality consultants through DCG's certified apprentice program\*

# Partnerships That Make Sense

It's time to fulfill your potential. Scan the code to get started.
