Bring DCG In To Help You Win

From one partner to another: There's a better way to take on (and save) projects outside of your organization's core skillset. DCG has a variety of partner models that allow you to instantly fill gaps in products or services focused on modern workplace & cloud, enterprise resource planning, business solutions, data transformation, and Microsoft Support.

Accelerate Sales

Win deals by bringing in DCG experts to showcase your ability to meet new customer needs.

Increase Competitiveness

Gain traction in new markets by coupling your new offerings with our GTM strategy and planning.

Build Brand Champions

Multiply and keep business by surrounding your clientele with new experts with your values.

Reduce Costs

Scale your team up and down on demand without the need for hiring, training, and developing.

Microsoft Partner Experience**

Collaboration Services

Meet Client Need On Demand

We empower you to take on larger client requests by working alongside you to meet just-in-time client needs. This partnership is perfect if you're looking to offer more to your clients without investing in additional staffing.

White Label Services

Scale Your Business Faster

We enable your growth by serving as an extension of your company to offer a wider range of Microsoft services, saving you research and development costs.

Contract & Placement Services

Enhance Your Team with Microsoft Experts

We ensure you save up to 60% on staffing expenses, recruitment costs, and headhunter fees by matching top Microsoft talent with your unique team need.

Referral Services

Increase Revenue Opportunities

We ensure you receive compensation for every D365, Azure, ERP, support, or custom development lead that falls outside of your core competency.

Partnerships That Make Sense

While we take a customized approach to partnerships, we know starting with a pre-defined method of working can often expedite solutions for your just-in-time need or expansion journey. With DCG as your trusted partner, you'll have the flexibility to right size how we work together.
